

STUDENT TEACHERS

POLICY

The Board believes that the development of competent teachers depends upon school districts participating in student teaching programs which provide mutually-rewarding experiences for the student teacher and the school system.

PROCEDURE

1. Student teachers shall be accepted from colleges for teaching as approved by the superintendent of schools or the assistant superintendent upon recommendation of the principals.
2. A student teacher shall be left completely responsible for a class at times following adequate initiation in class procedures, but the regularly assigned teacher is to remain on call at a nearby station so that she/he can carry actual legal responsibility for the class.
3. Student teachers are to receive no pay from the school. Any payment by the college for supervising teachers shall be made directly to the teacher.

Adopted 07/13/65; Amended 08/19/76, 04/21/94, 01/28/08
