

BLOODBORNE PATHOGENS

All District employees must follow the Universal Precautions for Bloodborne Pathogens where there has been an exposure to blood or other potentially infectious disease. Under Universal Precautions for Bloodborne Pathogens all human blood and certain human bodily fluids are treated as if known to be infectious for HIV, HBV, Hepatitis B, and other bloodborne pathogens.

The Superintendent shall develop and implement an exposure control plan as required by law. A copy of the exposure control plan shall be maintained in each principal's office and in each school health office. Training for employees who are at a daily or occasional risk of exposure shall be provided by the District.
