

Bond Update

Volume 9

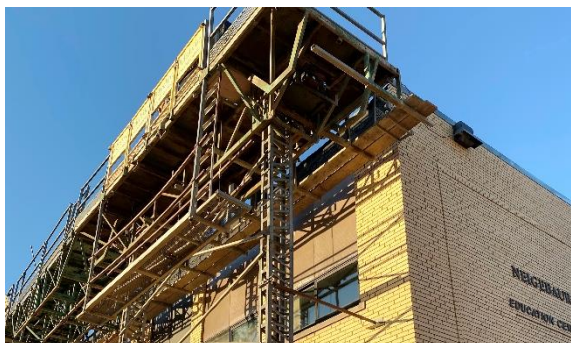

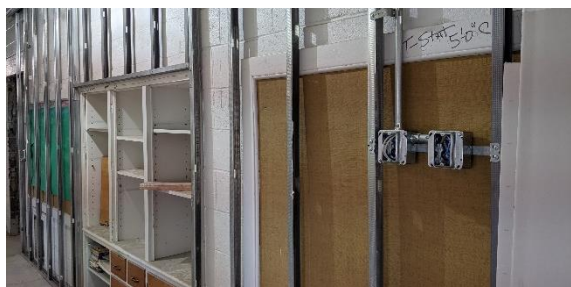

Happy Holidays Fitzgerald Community!

Thank you for your continual support and commitment to Fitzgerald Public Schools and our students. With 2020 coming to a close, we are proud of the work accomplished across the District and look forward to the upcoming improvements in the final bid package of Bond Series 1, scheduled to start construction in the spring of 2021.

At the Neigebaur Administration Building, restoration of the existing east façade is complete and masonry work at the new entrance location is making steady progress. Inside the building, the construction team is hard at work installing interior framing and coordinating mechanical and electrical work. The completed Administration Building will house a new Board Room and administrative offices to help Fitzgerald Public Schools better support our students, staff, and community.

Completion of the exterior masonry walls at the Weight Room Addition will allow for structural steel installation.

Recently completed work at the Neigebaur Administration Building Renovation. Pictures show new wall framing and façade restoration.

Progress continues on the Fitzgerald High School Weight Room Addition, with exterior masonry walls approaching completion and structural steel installation scheduled for early December. We are excited to see the building take shape and look forward to sharing additional updates on the new educational spaces.
