◆ Early Entrance

At the Early College of Macomb (ECM), 11th grade students enter a college program while still in high school.

They benefit from a curriculum that enables them to earn their high school diploma and attend a 13th year of school after graduation, earning an Associate's Degree *with no cost to themselves for tuition, fees and books.*

◆ Early Exit

Students in the ECM may complete the program with an Associate's Degree in three years (grades 11, 12 and 13).

Early College of Macomb students attend high school classes in their home schools, as well as career-focused classes on the Macomb Community College campus. Students engage in an exciting curriculum taught by both high school and college instructors that will move them *ahead of a traditional schedule* toward degrees or technical certificates that match the students' chosen career pathways.

◆ Early Success

Once students complete the program, they are poised for immediate success.

They may earn up to the 62 college credits required for their associate's degree or technical certificate. These credits may also be transferred to a four year college program. They have the option to begin work immediately in their chosen field, or continue with their education a year ahead of their peers toward a Bachelor's degree.
