

## **HOMEBOUND INSTRUCTION POLICY**

The Fitzgerald Public School's Board of Education recognizes that the district shall provide individual instruction to students of legal school age who are not able to attend classes because of a medical condition that is certified by the student's attending physician, hospital or licensed treatment facility that requires the student to be out of school for a period of longer than five (5) school days.

The district reserves the right to withhold homebound instruction when the instructor's presence in the place of a student's confinement presents a hazard to the health of the instructor; a parent or other adult in authority is not at home with the student during the hours of instruction; or the condition of the student is such as to preclude his/her benefit from such instruction.

The Superintendent shall develop administrative guidelines for implementing this policy.
