UPDATED PROCEDURES

Fitzgerald is Focused on Safety

FITZGERALD
Public Schools

UPDATED PROCEDURES

We are excited to announce a new technology tool that we will be utilizing to enhance our security protocols. We are always evaluating our security procedures to make sure that we are doing everything we can to keep our buildings safe and secure.

As always if you are picking up a student or Volunteering/Chaperoning in the school, you are required to present your State ID for verification.

Picking up a Student from the Main Office

- The school staff member will ask for your ID as we always have
- It will be scanned into our system to verify that you are on the student's contact list.

For Student Pick Ups, this adds another layer of security

Volunteering/Chaperoning during the school day

- The school staff member will ask for your ID as we always have
- It will be scanned into our system and print you a badge that must be worn while in the building.

For Volunteers, this lets all staff know that you have checked into the office

Our new system is linked to the National Sex Offender Registry and will also alert us of any custody arrangements of which we have documentation on file.

Reminder: If there are people that cannot pick your student up from school, please make sure that the school office staff is aware of this.

It is also important that a copy of any custody paperwork is in your child's school file. This protects your child and makes sure the staff is aware of any custody arrangements

Make sure to always update your contacts on the sheet sent home before school starts. This is just a yearly check in to make sure that we have correct information.

Westview's Family Cooking & Crafts Night Was A Huge Success!

We had an amazing turnout for our Family Cooking and Crafts night last week and were so excited to see so many of our Westview families in attendance! Families enjoyed a delicious meal and then created beautiful works of art using canvas boards and a rainbow of paint colors. After that, students practiced their reading and math skills by following a recipe to make their made from scratch bread recipe. Thank you to all of our amazing staff members who helped make this event possible! We look forward to seeing your family at our upcoming Family Engagement Events!

What Parents & Carers Need to Know about

AGE-INAPPROPRIATE CONTENT

"Inappropriate" means different things to different people. What's acceptable for one age group, for example, may be unsuitable for a slightly younger audience. Online, young people can chance upon inappropriate content in various ways – from pop-up ads to TikTok videos. The increasingly young age at which children become active in the digital world heightens the risk of them innocently running into something that they find upsetting or frightening. Trusted adults need to be able to help children be aware of what to do if they're exposed to age-inappropriate content.

WHERE IS IT FOUND?

SOCIAL MEDIA

Age-inappropriate content is easily accessible through many social media platforms. TikTok, for instance, is hugely popular with young people but is arguably best known for clips featuring sexualised dancing or profanity. Some social media users also express hate speech or promote eating disorders and self-harm, which could cause lasting damage to a child's emotional and mental health.

GAMING

Gaming is an enjoyable source of entertainment, but many popular titles can expose children to inappropriate material such as violence, horror, gambling or sexually explicit content. Playing games unsuitable for their age risks normalising to children what they are seeing. Some games also include in-game chat, where other (usually older) online players often use language that you probably wouldn't want your child to hear or repeat.

STREAMING

The range of video streaming services available online means that users can find almost anything they want to watch on demand. Children are therefore at risk of viewing TV shows and movies which contain nudity, drug and alcohol abuse, explicit language and extreme violence. Unfortunately, these streaming platforms can't always determine that it's not an adult who's watching.

ADVERTS

Online adverts frequently include age-inappropriate content: usually gambling and nudity or partial nudity, although adverts for alcohol or e-cigarettes are also common. Some search engines also feature adverts that are responsive to your search history; so if you've recently looked up a new horror movie, shopped for lingerie or ordered alcohol online, then the ads appearing on screen could reflect this the next time your child borrows your device.

Volunteering/Chaperoning during the school day

- The school staff member will ask for your ID as we always have
- It will be scanned into our system and print you a badge that must be worn while in the building.

For Volunteers, this lets all staff know that you have checked into the office

Our new system is linked to the National Sex Offender Registry and will also alert us of any custody arrangements of which we have documentation on file.

Reminder: If there are people that cannot pick your student up from school, please make sure that the school office staff is aware of this.

It is also important that a copy of any custody paperwork is in your child's school file. This protects your child and makes sure the staff is aware of any custody arrangements

Make sure to always update your contacts on the sheet sent home before school starts. This is just a yearly check in to make sure that we have correct information.

Working Together, Focused on Safety

Después de las vacaciones de mitad de invierno, escanaremos las identificaciones estatales para recoger a los estudiantes en la oficina y para ser voluntarios y acompañantes. Este sistema está vinculado al Registro Nacional de Delincuentes Sexuales y también nos alertará sobre cualquier acuerdo de custodia del cual tengamos documentación archivada. Esta es sólo otra capa de seguridad.

What Parents & Carers Need to Know about AGE-INAPPROPRIATE CONTENT

(CMS) 23-24 استبيان احتياجات الوالدين لنظام إدارة المحتوى

"Inappropriate" means different things to different people. What's acceptable for one age group, for example, may be unsuitable for a slightly younger audience. Online, young people can chance upon inappropriate content in various ways – from pop-up ads to TikTok videos. The increasingly young age at which children become active in the digital world heightens the risk of them innocently running into something that they find upsetting or frightening. Trusted adults need to be able to help children be aware of what to do if they're exposed to age-inappropriate content.

2023-24 استبيان احتياجات الوالدين لنظام إدارة المحتوى

WHERE IS IT FOUND?

PLAY NOW

SOCIAL MEDIA

Age-inappropriate content is easily accessible through many social media platforms. TikTok, for instance, is hugely popular with young people but is arguably best known for clips featuring sexualised dancing or profanity. Some social media users also express hate speech or promote eating disorders and self-harm, which could cause lasting damage to a child's emotional and mental health.

GAMING

Gaming is an enjoyable source of entertainment, but many popular titles can expose children to inappropriate material such as violence, horror, gambling or sexually explicit content. Playing games unsuitable for their age risks normalising to children what they are seeing. Some games also include in-game chat, where other (usually older) online players often use language that you probably wouldn't want your child to hear or repeat.

STREAMING

The range of video streaming services available online means that users can find almost anything they want to watch on demand. Children are therefore at risk of viewing TV shows and movies which contain nudity, drug and alcohol abuse, explicit language and extreme violence. Unfortunately, these streaming platforms can't always determine that it's not an adult who's watching.

ADVERTS

Online adverts frequently include age-inappropriate content: usually gambling and nudity or partial nudity, although adverts for alcohol or e-cigarettes are also common. Some search engines also feature adverts that are responsive to your search history: so if you've recently looked up a new horror movie, shopped for lingerie or ordered alcohol online, then the ads appearing on screen could reflect this the next time your child borrows your device.

UPDATED PROCEDURES

Fitzgerald is Focused on Safety

We are excited to announce a new technology tool that we will be utilizing to enhance our security protocols. We are always evaluating our security procedures to make sure that we are doing everything we can to keep our buildings safe and secure.

As always if you are picking up a student or Volunteering/Chaperoning in the school, you are required to present your State ID for verification.

Picking up a Student from the Main Office

- The school staff member will ask for your ID as we always have
- It will be scanned into our system to verify that you are on the student's contact list.

For Student Pick Ups, this adds another layer of security

Volunteering/Chaperoning during the school day

- The school staff member will ask for your ID as we always have
- It will be scanned into our system and print you a badge that must be worn while in the building.

For Volunteers, this lets all staff know that you have checked into the office

Our new system is linked to the National Sex Offender Registry and will also alert us of any custody arrangements of which we have documentation on file.

FITZGERALD
Public Schools

UPDATED PROCEDURES

Reminder: If there are people that cannot pick your student up from school, please make sure that the school office staff is aware of this.

It is also important that a copy of any custody paperwork is in your child's school file. This protects your child and makes sure the staff is aware of any custody arrangements

Make sure to always update your contacts on the sheet sent home before school starts. This is just a yearly check in to make sure that we have correct information.

Working Together, Focused on Safety

শীতের মাঝামাঝি বিরতির পর আমরা ছাত্রদের অফিস থেকে উঠানোর জন্য এবং স্বেচ্ছাসেবক ও পরিচর্যার জন্য রাষ্ট্রীয় আইডি স্ক্যান করব। এই সিস্টেমটি ন্যাশনাল সেক্স অফেন্ডার রেজিস্ট্রির সাথে যুক্ত এবং আমাদেরকে যেকোন হেফাজতের ব্যবস্থা সম্পর্কে সতর্ক করবে যার ফাইলে ডকুমেন্টেশন আছে। এটি নিরাপত্তার আরেকটি স্তর।
